That's pretty impressive. I 14 Q. Did you begin your studies at couldn't recall mine, so I'm just curious. Rutgers majoring in psychology? Okay. So after you graduated 16 ¹⁶ Rutgers in 1997, what were your plans upon A. No, I actually started at NJIT in civil engineering. graduation? Just to seek a job out in the world 18 somewhere? (Reporter clarification.) 19 A. I started at NJIT, New Jersey 19 A. I was already working with the ²⁰ Institute of Technology, in civil engineering, ²⁰ City of Newark in the mayor's office. And ²¹ before that, I did an internship with Senator but it really -- as I went along, I didn't want ²² Frank Lautenberg. I did -- I was interested in 22 to do that for the rest of my life. 23 ²³ politics to a point, or at least I liked My whole family is in ²⁴ construction, and my father is an architect. I ²⁴ government. So I -- I was working in at least was very good at it, but it's just -- I couldn't ²⁵ municipal government at that point. But I Page 15 Page 17 ¹ always did have that urge to go into law ¹ see myself doing that for the rest of my life.

² enforcement and at one point the military also,

³ but ...

24 25

Q. But you never pursued a career in the military or enlisted in the military?

A. No. No, I didn't. I just -timing, I think, was the deal with that, that I did not.

Q. When did you begin your job as a -- in the mayoral administration in the City of Newark?

A. I started working as a mayor's 13 aide in -- I think first I was an intern for a day, and then they switched and hired me over as a mayor's aide after a day. And I was -- let's see. That was March of -- I think it was 1996 17 or something, or 1997, 1997.

18 Q. So in your resumé, you have a date of May '97, and I don't know if that refreshes your recollection.

21 A. Okay. That could be it. May '97 22 then. 23

MR. KOBRIN: You could use your THE WITNESS: Yeah, that's true.

So I transferred across the ³ street, which Rutgers was directly across the

⁴ street. In fact, you could take courses from ⁵ either one, if you're enrolled and wanted to

⁶ take courses from the other.

10

So I did that. Took courses and 8 eventually transferred over and received a BA in psychology from Rutgers.

Q. Was it your intention when you graduated to pursue a career in psychology?

12 A. No. I was thinking about -- I did ¹³ a lot of criminal psychology at first. I guess 14 I watched "Silence of the Lambs" too many times, ¹⁵ and I wanted to become a profiler, FBI serial ¹⁶ killer profiler. But I went into law ¹⁷ enforcement. I just -- I was working with the ¹⁸ FBI a bunch of times. I decided the DEA was a ¹⁹ better fit.

20 Q. Did you ever consider attending 21 law school and becoming an attorney?

A. Actually, we were talking about 22 23 this yesterday. I was -- I was a lot of times ²⁴ working with the assistant U.S. attorneys. They ²⁵ impressed me, and I did like what they were

Page 18 I should -- I should actually refer --BY MR. YOUNG:

- 3 Q. Yeah, and specifically that last page of your resumé is where I'm looking. 5
 - A. Yeah, exactly, May '97.
- 6 Q. Did you begin an internship or your job as the mayor's aide a day later prior
- to graduating Rutgers or after graduating 9 Rutgers?
- 10 A. I was already working there.
- 11 Q. Okay. So prior to graduating?
- 12 A. Just prior.

25

- 13 Q. Do you recall your salary as a 14 mayor's aide?
- 15 A. I started as an intern, so they were paying me as an intern, so it was, like, I
- think, \$30,000. And then -- and then it went ¹⁸ up. After they made me a mayor's aide, I think
- 19 I was around 45, 50 thousand dollars, which for ²⁰ a kid right out of college isn't that bad.
- Q. And how did you find this job as ²² a -- as a mayor's aide? I know you mentioned ²³ you were an intern. Is that how you found the ²⁴ job?
 - No. I was driving back from my

Q. Okay. And who was the mayor at ² that time?

- A. Sharpe James.
- Q. Was he the -- I guess you were a mayor's aide for one year. It was always for Mayor James?
 - A. Yes.
 - Q. Okay. And he was a longstanding mayor --
- 10 A. He was a mayor for, like, 11 30 years, or something to that effect.
- Q. Did you during your time as a 13 mayor's aide ever have occasion to work on any pharmaceutical or drug policy issues?
- A. No. I mainly worked -- I was a ¹⁶ liaison between the police and fire departments
- for the City of Newark for the mayor. I would call either the police director or the fire
- director and go over different issues that
- different, I guess, civic leaders had in areas
- 21 regarding crime or buildings that were -- needed
- 22 to be taken down because they're fire hazards,
- or just different policy issues, but nothing
- specific regarding pharmaceutical.
 - Q. How about illicit street drugs?

Page 21

- ¹ internship with Senator Lautenberg's office, and
- ² I saw the mayor of Newark with the CEO of
- ³ Prudential walking into -- they were building
- ⁴ the Prudential Center, or the NJ PAC, the
- performing arts center, in Newark.
- So I kind of stopped and ⁷ introduced myself. Took a tour with the mayor
- 8 and Art Ryan, who was the CEO of Prudential, of
- ⁹ the performing arts center, which was under
- 10 construction. And the mayor liked me and wanted
- 11 me to work for him as an intern. As I said,
- worked for one day as an intern, and then they
- 13 hired me full time as an aide.
- Q. Did Senator Lautenberg make a 15 recommendation for you to the mayor?
- 16 A. I don't know if he did. I never
- ¹⁷ asked him to. I would hardly see
- ¹⁸ Senator Lautenberg. He'd stop into the office,
- go to his office specifically and leave. We'd ²⁰ rarely see him.
- 21 Q. And how did you get the position ²² with Senator Lautenberg?
- 23 A. I went to his office one day,
- which was in Newark, and asked if they had any
- ²⁵ internships.

¹ Anything --

10

- A. Yes. I mean, a lot of the
- complaints were in regards to drug dealing.
- Q. And you mentioned you split time ⁵ between the -- or oversaw both the police and
- ⁶ the fire departments. Did you have any
- background or training with regard to
- supervising police or fire departments?
 - MR. KOBRIN: Object to form. A. No, I didn't at that point. I was
- a -- just basically graduated college.
- 12 Q. Did you receive any specific training or support in order to oversee the
 - Newark police and fire departments while you
- were a mayor's aide?
- 16 A. I wasn't in charge of them. I was
- just more of a liaison that would tell them or speak with the different department heads as to
- issues that they should look into. I wouldn't
- tell them, "Send 20 police officers to this
- location and set up a command post" or anything. 22
 - Q. I understand.
- 23 Okay. So how long were you a mayor's aide for Mayor Sharpe? On your resumé,
- 25 it says to July '98. Is that accurate?

- A. That's -- that's right. It's just ² a little bit over a year.
- O. Okay. And you, I take it from your resumé, transitioned to a different job in the City of Newark?
 - A. Yes.
- 7 Q. Give me the background on that. 8 How did you transition? Did you -- did somebody approach you about another job, or did you seek 10 out another job?
- 11 A. Well, the mayor wanted me to do 12 what interested me, and what interested me were 13 the police and fire department. And at that point I did a lot of work with the police ¹⁵ department, so I spoke to the mayor and I spoke 16 to the police director to see if there's any position that I could assist and get more 18 exposure. And that's when I went over to the 19 police department.
- 20 Q. The position, the title, you have on your resumé is assistant deputy director, administrative officer, police spokesman.
- 23 A. Yes.
- Q. Is that three different positions 25 over time, or was that --

¹ narcotics, the street drugs.

Q. Do you recall any significant ³ arrests or indictments that related to your work ⁴ during that time in the City of Newark relating to pharmaceuticals or opioids?

Page 24

Page 25

- A. No.
- O. So who was your supervisor -- was your supervisor at the Newark Police Department a law enforcement person or an administrative 10 person? 11
 - A. Law enforcement person.
- 12 And what was that person's name O. 13 and title?
- 14 A. At the time the deputy director of the police department, Rocco Malanga, he was --I worked directly underneath him. He headed the police department's office of community affairs and public relations.
- 19 Q. Okay. So that -- that's why I asked about administrative versus law enforcement. That sounds like more of an administrative job than a law enforcement job.
 - Oh, yes.
 - Q. Okay.
 - Yeah, I was not a law enforcement

Page 23

23

24

25

8

10

- A. It's -- it was a conglomeration of ² positions at the same time that they gave me all ³ the titles for. I worked countless hours every ⁴ day on all those things. And a lot of them had ⁵ major overlap.
- Q. I want to talk specifically about ⁷ serving as the police spokesman. Did you have 8 any studies at Rutgers or really anywhere else ⁹ that were focused on the duties attendant to ¹⁰ being a police spokesman? In other words, ¹¹ public relations courses or journalism courses?
- 12 A. Well, I took -- I took a lot of 13 literature courses that dealt -- I have taken journalism courses, and there was -- when I was ¹⁵ a mayor's aide, another thing I did a lot was ¹⁶ interacting with the media. So I had a lot of ¹⁷ on-the-job training.
- Q. And do you recall -- the tenure 19 you have on your resumé is July '98 to ²⁰ January 2000. During that limited time period ²¹ as a police spokesman, did you have occasion to ²² handle any media coverage relating to 23 pharmaceutical drugs or opioids specifically?
- 24 A. No. The main problem in Newark ²⁵ regarding any drug was more the illicit

¹ officer at that point.

Q. Yes. And your supervisor was also not a law enforcement --

A. He was a law -- he was a police officer who was elevated to that -- it's an administrative position.

Q. Okay.

But he was a law enforcement officer.

Q. I see.

11 In your resumé, it says that you 12 assisted -- during this tenure in your career, you "assisted in the creation, instituting, and restructuring of, among other things, the Drug Abuse Resistance Education or DARE program." 16 Can you give us a little bit of background about the DARE program and what you did there? 19 A. The DARE -- the DARE program was

underneath our public relations department, community affairs. It was an ongoing program, 22 which is a national program aimed at school-aged 23 children to keep them away from drugs, give them 24 other options, tell them, you know, that drugs ²⁵ are bad and the evils of drugs, and a lot of

- education. So I helped beef up that area of the
 police department.
- Q. Did the DARE program cover prescription drugs as well as illegal drugs, or was it exclusively focused on illegal or illicit drugs?
- A. At that time, it was primarily
 illegal illicit drugs.
- Q. During this tenure, this July '98
 to January 2000, did you receive any type of
 specialized training or instruction or education
 about the dangers of prescription drugs or
 prescription drug abuse?
- A. At that time prescription drug abuse wasn't a main topic. It was the illicit street drugs that were -- at least the main issue in the City of Newark.
- Q. Okay. And I take it from your resumé, you left that position in January of 20 2000 to join the fire department. Tell me about what led to that decision to leave the Newark PD and join the fire department.
- A. I did a lot of work with the emergency management department within the fire department, and I liked that position. I liked

- he 1 department previously?
 - A. No. This was a lot more hands-on,
 - ³ running emergency management-type situations and

Page 28

Page 29

- 4 disasters within the city, anything from major
- ⁵ fires to chemical leaks to small plane crashes
- ⁶ or anything to that nature.
- Q. Do you recall your supervisor's
- 8 name and title for that job?
- A. The overall commander of emergency
 management was Robert Swales.
 - Q. And his title was commander?
 - A. He was the -- coordinator of
- emergency management was his exact title.
- Q. Okay. Do you recall your salary?
 - A. At that time I was probably around \$70,000.
- Q. And I didn't ask, but do you recall your salary while you were at the police department as assistant deputy director?
 - A. Around \$60,000.
- Q. So in August of 2001, what led you to leave the Newark Fire Department?
- A. I was offered a -- I took the police test earlier that year, and I was offered a position within the Newark Police Department

Page 27

- $^{1}\,$ what they did. I liked the impact, being able
- ² to help people dealing with disasters. So I
- ³ switched over to that position.
- I was just trying to get exposure,
 trying to learn new things. My overall career
 goal was to go into law enforcement, but I
 wanted to get well rounded.
- Q. And there was an opportunity to go
 to the fire department to, I guess, get well
 rounded. Is that your --
- ¹¹ A. Yes. And I really enjoyed the ¹² emergency management job.
- Q. Okay. And I noted -- I had to think to myself the timing of 9/11. You actually left there in August of 2001, just a month before 9/11.
- A. Just a month before. And I was in the academy during 9/11. We actually saw the buildings go down while we were doing a PT in Branch Brook Park.
- Q. Wow. The job duties that you had -- I guess you were at the Newark Fire Department from January 2000 to August 2001. The job duties that you had there, were they
- ²⁵ similar in scope to what you did at the police

¹ based on my score.

- Q. And on your resumé, you have the
- time period August 2001 to September 2005, and
 the position description is police
- ⁵ officer/detective. I take that to mean that you
- ⁶ didn't start out as a detective but became one
- ⁷ during that time?
 - A. Yes, correct.
- ⁹ Q. Okay. When did you become a ¹⁰ detective?
- A. Let's see. In 2004, March of 2004. That was the March.
 - Q. Okav.
 - A. Yeah, March 2004.
- Q. Is that a separate test that you
- have to take to become a detective?
- ¹⁷ A. No. It's an appointment in the ¹⁸ City of Newark.
- Q. Is that typical for local police departments?
 - MR. KOBRIN: Object to form.
 - Q. If you know.
 - A. A lot of departments, it's an
 - ⁴ appointment. I know New York PD, it's a -- you
- ²⁵ have to take a test. It's a whole other -- I

¹ think LAPD also.

10

2 Q. From TV shows, I've always heard, ³ you know, "You have to pass your detective's test." That's my base of knowledge, so ...

Okay. So just to walk through a ⁶ little bit about your tenure with the Newark PD. ⁷ So you started in August of 2001, and you say 8 here that you were the academy platoon leader responsible for 60 recruits.

Explain to me a little bit about ¹¹ what the academy platoon leader does.

A. I was a platoon leader. Since 12 ¹³ there's 120 recruits, there's two platoon ¹⁴ leaders. You would have squad leaders, six ¹⁵ squad leaders, because each -- you divided it ¹⁶ into six teams of ten. And then you would be basically the liaison between the academy staff ¹⁸ and the recruits.

19 So if they wanted a specific thing ²⁰ done, they tell you, and you'd figure out how to ²¹ do it. And then you'd delegate it to your squad ²² leaders, tell them what to do, and then they'd 23 tell their personnel to do it.

Q. I see. So it's part of the ²⁵ hierarchy of the recruits?

Q. And you were a uniformed patrol ² officer at that time?

A. Started off as uniformed patrol officer for about six months. And then they made my partner and I plain clothes street ⁶ crimes because we were, I guess, doing a good job.

Q. Okay. While you were in this patrol division, east district, did you have occasion to work on any cases involving prescription drugs or specifically opioids?

12 A. It's -- I mean, not like real 13 investigations. But you'd start -- we'd start coming across people with a couple of diverted pills here and there.

16 Q. There's another item under here 17 I'm curious about. It says you were the captain of the team that participated on The Today Show, America's bravest and finest competition. I've not heard of what. What's that about?

A. That was the summer after 9/11. 22 It was -- they had teams from across the ²³ country. They wanted two policemen, two ²⁴ firemen, one of which had to be a female. And ²⁵ we competed in this obstacle course challenge.

Page 33

Page 31

- 1
- You were the upper echelon of the ³ hierarchy?
 - A. Yes.
- And it says you received the instructor's award. What is the instructor's award given for?
 - A. The number one recruit overall.
- 9 Q. And you graduated the police academy in December of 2001; is that right? 10
- 11 A. Correct.

8

17

25

- 12 Q. And you began -- and this is -obviously, I'm just taking it from your resumé. 14 You began in the patrol division, east district, ¹⁵ in 2001. You stayed there until March of 2004, 16 right?
 - A. Let's see. Yes. Correct.
- 18 Q. Okay. What's the -- the designation "east district." How many districts are there?
- 21 A. At that time there's four ²² districts.
- 23 Q. Are they compass points; east, 24 west, south ---
 - Yeah, exactly. It's based upon --

Q. I do remember this.

A. And we were the -- we made it to semifinals, so ...

Q. Okay. Did your appearance air on national TV?

- A. Yes, it did.
 - Q. Oh, that's pretty cool.

Okay. So in March of 2004, you,

it looks like, transitioned to what's called

Neighborhood Enforcement Stabilization Task

¹¹ Force. What exactly is that?

12 A. It was a task force that was 13 targeting the most violent areas in the City of Newark. And at the time it was primarily in the west district. It was kind of -- it was a crime suppression kind of detail.

17 Q. And that's a very brief period, just March to April of '04.

A. Yes.

19

Q. Was that just a limited duration of the task force, or was it just your participation?

23 A. That's when -- because before, I said March, but it was really April. April was ²⁵ when I was promoted to detective. So that's why

- ¹ I -- I was promoted to detective, and then I was ² assigned to criminal investigations bureau and ³ loaned out to the DEA as a task force officer.
- Q. Okay. And I want to understand ⁵ that. So you were an employee of the Newark ⁶ Police Department, but they had a collaboration

with the DEA to give them officers?

- A. Yes. That's -- that's a program ⁹ within the DEA. They have -- and several other ¹⁰ federal agencies. They accept police officers, 11 detectives from other departments to help
- ¹² supplement their manpower, and also give them ¹³ expertise in certain areas that the department
- ¹⁴ might not necessarily have. 15
 - Q. But at all times, you were an employee and paid by the Newark Police Department, not the federal government?
- 18 A. Correct. Although they reimbursed 19 for some overtime, I think.
- 20 Q. Did they give you a car?
- 21 A. Yes.

25

6

7

9

16

- 22 Q. The DEA?
- 23 The DEA did give me an Enterprise A. rental car.
 - MR. KOBRIN: Object to form.

¹ it was all fabricated complaints. They usually

- ² did that to, like, "Oh, you arrested me" or
- ³ you -- like, we locked them up and get their
- 4 stash of drugs and their gun and all that. It
- ⁵ was a way of retribution a lot of times. But
- 6 they'd make some things saying we stole money or
- beat them up or ...
- Q. Do you recall how many of those types of complaints you received during this tenure?
- 11 A. Not many. And they were all 12 non-sustained.
- 13 Q. Was there ever any -- I'll call it Internal Affairs. It might be Office of ¹⁵ Professional Responsibility. Different
- departments call it different things.
- Any of those internal investigations done into your work for the Newark Police Department at this time?
- 20 A. Well, they have to investigate 21 every and all allegations made, but everything was non-sustained.
- 23 Q. Okay. I guess that was -- yeah, my question was whether there was more than a

cursory investigation, a deeper dive.

Page 35

When you said "at all times," you 1 2 just mean during this period where he 3 was actually working for the Newark 4 Police Department --

MR. YOUNG: Yes. 5

MR. KOBRIN: -- not when he later worked for the DEA?

8 MR. YOUNG: Yes. Sorry.

THE WITNESS: Good point.

BY MR. YOUNG: 10

- 11 Q. Okay. So you're on loan to the 12 DEA. And I note in your resumé during this time period, you received a number of awards. We don't need to go through them all, but kudos to 15 you. It looks like you had a stellar career --
 - Thank you.
- 17 Q. -- with the Newark Police

¹⁸ Department.

19 Did you ever have any complaints ²⁰ taken out against you or investigations into your actions as a police officer? During this

22 time, by the way. 23

A. During the 2001, 2005? It's a general thing within Newark that people make

²⁵ complaints. Nothing was ever sustained, because

A. No. Once -- once they -- they'll

² fully investigate everything to the point where

Page 37

3 they know that it's either a real allegation or

4 not.

11

12

17

18

Q. And from this point,

⁶ September 2005 going all the way back to when

you were a mayor's aide, were you ever the

subject of litigation, a civil suit, or any kind

of criminal investigation, anything like that? 10

MR. KOBRIN: Object to form.

A. No. No, I was not.

Q. Okay. So September 2005, you

transitioned over to the DEA to begin a 13-year career as a DEA special agent. You also in your

16 resumé say "supervisor."

> At what point in time did you become a supervisor for the DEA?

19 A. I was usually the senior agent in

the group behind the group supervisor. So I was

supervisor many times. Whenever the supervisor 22 is out on vacation, the senior agent becomes the

supervisor, or I was also loaned out to

different task forces at different times where

²⁵ I'd supervise the task force.

Q. I see. So "supervisor" isn't a job title. It's more a --

A. No. The actual titles that we'd
have, if you go for the promotion, would be
group supervisor. So I was an acting group
supervisor or supervisor of different task
forces that I was on loan to.

Q. Got it.

Okay. So tell me about the transition you make to the DEA. You were at Newark PD on loan to the DEA, and then in September 2005, transitioned fully to work for the DEA. How does that happen?

A. While I was on loan to the DEA,
the special agent in charge and a couple of the
assistant special agents in charge sat me down
and spoke to me, talked to me about joining the
DEA. They thought that I'd make a good agent,
that I should join.

So I agreed, and I -- you have to
go through a whole application process. I put
in an application, which is a whole background
check. You have to do a psychological exam, a
polygraph, a physical fitness test, a physical,
written test.

¹ was never officially assigned to a diversion

² group, but we were all expected to work

³ diversion cases as special agents.

Q. Okay. But would you say that your
 primary responsibilities during your career with
 the DEA were on the criminal side of drug
 investigations?

A. Most of the cases I did work were more on the --

MR. KOBRIN: Object to form on that.

Go ahead.

A. Most of the cases were more on the illicit drugs, the cartels, the gangs, violence.
But I had several dozen -- a couple dozen cases that were diversion cases as well.

Q. And the diversion cases were triminal in nature as well, right?

A. Yes.

19

Q. They were not administrative functions of the Office of Diversion Control, right?

A. No. Agents do criminal investigations.

Q. Are there employees of the DEA

Page 41

Page 39

And after I went through the entire process, I was slotted into a basic agent class down at Quantico in September of 2005.

Q. Had you previously applied to be a special agent? Gone through that process you just described?

A. No. It was just that one time, and I was hired.

Q. When you are hired by the DEA, is there a particular focus or designation that they give you to say, "Okay. You're going to work on this type of activity the DEA investigates" versus other types of activity?

Does that make sense? Did you have -- did you have a focus or a specialty when you first started?

A. Not really. You come out of the academy as a special agent, and you're expected to be able to investigate all drug crimes, anything underneath Title 21.

²¹ Q. The DEA also has something called ²² Office of Diversion Control, I think.

²³ A. Yes.

24

25

Q. Did you work for them?

A. I worked with them many times. I

 $^{1}\,$ that do more administrative functions like

² inspections of pharmaceutical facilities?

A. Correct. That would be a

⁴ diversion investigator.

Q. So they're not a special agent?

A. No, they're not.

Q. Is there a hierarchy within DEA

8 such that special agents look down upon

⁹ diversion investigators?

A. We don't look down on them, but there is a hierarchy that we are -- even if you look at the organizational chart, we are above

them.
 Like, let's say that I was
 assigned to a diversion group. I would -- and
 there's ten people in the group. They have it

¹⁷ all based upon seniority. You're given a

designation. I was usually -- the boss would be01. The senior agent would be 02.

Now, going to a diversion group,

there could have been a diversion investigator that's been there for 30 years. I could be a

brand-new agent coming out of the academy, and

²⁴ let's say it was a three-person group, it would

²⁵ 01 the supervisor. I'd automatically become the

- ¹ 02 above the person that's been doing it for ² 30 years because the investigator is not the ³ same distinction.
- O. Sure.

10

5

14

15

16

17

18

19

20

5 Are there other positions within ⁶ the DEA besides those two that you just described, the investigator and special agent within that hierarchy? 9

- A. There's --
- O. There's a whole bunch?
- 11 A. There's a -- I mean, you have ¹² demand reduction. You have all different civilian-type positions.
- Q. And you were always a special agent or supervisor during your tenure, no other position?
- 17 A. No. Once you're a special agent, you're a special agent. Even if you go up the ranks, you're still -- an 1811 is what the exact designation is.
- 21 Q. Is that a reference to a 22 federal --
- 23 A. Federal code. Everything is numbered and has codes and ...
 - Q. Do investigators for diversion

¹ any, you know, confidential details, what were

- ² the circumstances of that investigation, if you
- ³ recall? Was it pharmaceutical manufacturer
- ⁴ diversion from a warehouse? Was it from a
- ⁵ wholesaler? Was it from a retailer? You know,
- 6 what was the -- what was the nature of the
- diversion?
- A. Retailer doctor.
- Q. And was it involving opioids?
- 10 A. Yes.
- 11 Was it in New Jersey? Q.
- 12 A. Yes.

13

- Was all of your work done in O.
- New Jersey, or did you have a broader area than that?
- 16 A. Go anywhere in the country, technically anywhere in the world that we have an office. I've -- I've had cases that have
- gone to Europe, to Mexico. A lot of -- a lot of
- things we do have overlap into New York City. ²¹ So we do a lot in New York City. Some stuff
- goes to Philadelphia, Washington, Maryland, a
- lot of the contiguous states of New Jersey.
 - Q. So I assume that there are DEA special agents in those cities you just

Page 43

¹ control carry firearms?

- A. No. They don't carry firearms, handcuffs. They can't make arrests.
 - O. Gotcha.

Okay. So you mentioned that you ⁶ had worked at least a dozen diversion-type cases. I want to talk about those, if we could.

8 Do you recall the first instance in which you were assigned to work a case involving diversion? 11

A. I've worked a couple dozen, ¹² actually. But within probably the second year that I was an agent, I was --

> MR. KOBRIN: I just want to warn you not to get too much into details of your investigations or any ongoing investigations or information that would be confidential in nature.

Sorry to interrupt.

MR. YOUNG: Yeah, sure.

A. So, in general, I was assigned. I was helping one of the diversion groups with a case by my second year as an agent. That was probably the first one. 25

Q. And certainly without revealing

Page 45 ¹ described, like New York and Philadelphia. How

² do you determine who works a case when it

- ³ originates in New Jersey but it has a connection
- 4 to New York?
 - A. It would be -- if it started in
- ⁶ New Jersey and the base is in New Jersey and we
- started the case, it will be our case.
- Now, we could -- we could even
- deal with the U.S. Attorney's Office, let's say,
- 10 Southern District of New York in Manhattan if it
- 11 happened in Manhattan. We would interface with
- 12 that office as a New Jersey agent because we had
 - jurisdiction throughout the entire country.
 - So, I mean, if we needed help from
- 15 the office, like additional manpower or, "Hey,
- can you -- we're in Jersey right now. We know
- that something is happening on 52nd Street. Can
- you send a couple cars out to get an eyeball on
- it or do a little surveillance, follow that guy
- ²⁰ around for us while we're trying to get over 21 there."

22 So, I mean, there's a lot of

- ²³ collaboration between offices, but generally if
- ²⁴ an office starts a case and has a nexus to
- ²⁵ another location, we would follow it through

- ¹ unless it was -- like the nexus was to LA, so ² it's not really feasible for us to go from
- ³ Jersey to LA. So we'd give all -- we'd probably
- ⁴ go and meet with the agents in LA, give them
- ⁵ everything that we have, say, "Hey, these are
- ⁶ the guys that you guys should be watching." We
- ⁷ might both go up on wiretaps, do a collaborative ⁸ effort that way.
- 9 Q. Okay. And specifically with 10 regard to diversion cases, did those cases 11 originate from the Office of Diversion Control 12 or from the special agent side, or is it just a 13 mix?
- 14 A. Well, there's special agents in 15 the Office of Diversion Control.
 - Q. I should clarify.

16

17 How did you -- let's just take the first instance you recall working on a diversion 18 19 case. How did that case originate?

20 MR. KOBRIN: And, again, same 21 warning regarding confidential 22 information.

23 Q. Yeah. And I'm not looking for confidential information. I'm really looking at 25 "We got a call from diversion control about a

¹ inspections of registrants during your tenure ² with the DEA?

A. That's not generally what a special agent does.

Q. Have you received training to conduct the inspections, if you were asked to conduct an inspection?

A. I would be able to do one.

Q. You've witnessed inspections of registrants performed by others in the DEA? 11 MR. KOBRIN: Object to form.

12 A. I haven't had to go out and do inspections, so I wouldn't have witnessed it. But any -- any agent would be expected, if asked to go do an inspection of a registrant, to be able to do it.

Q. When you transitioned from Newark PD to the DEA, what was your starting salary with the DEA?

20 A. Let's see. The salary went down to -- at the academy, I think it was 46,000. And then as soon as you graduate, you get the availability pay, so it went up another 10,000. So mid 50s.

Q. So you took a pay cut to join the

Page 49

Page 47

¹ suspicious physician or a suspicious pharmacy," ² like how the case comes to light.

A. That one was an informant.

Q. So an informant that you all were ⁵ working with at the Newark DEA said, "Hey,

⁶ there's this shady doctor or this shady

pharmacy," something like that?

8 A. Something like that. I won't 9 really --

10 Q. Okay. How about the other 11 instances? I think you mentioned a couple dozen 12 of diversion cases. What are the other 13 originations of those cases?

A. A lot of them were informants. In ¹⁵ fact, most, if not all. But I think a couple of ¹⁶ them were from other offices sending these 17 like -- like I said, like how we'd work with LA, 18 stuff like that.

19 Q. Did you ever work a diversion case 20 that originated as a result of an inspection of ²¹ a registrant of either a manufacturer or ²² distributor or a dispenser of controlled 23 substances?

24 A. Not that I know of.

25

Q. Have you ever conducted

¹ DEA?

12

13

15

16

A. Yes. I was -- with overtime in

³ Newark PD as a detective, I was probably making

around 90- to 100,000 dollars every year.

Q. So I have to ask. Why the move? Was it just long-term career advancement?

A. I really liked the job working

with the DEA. I thought that their mission was

excellent. The people I worked with, the training. It was all around -- it fit. It was

a good fit.

MR. KOBRIN: You liked the Enterprise car.

14 A. The Enterprise car was the best.

Q. Call that a G ride, right?

A. Well, the rental car -- oh, man.

Yeah, I got some really good G rides in the

beginning. You get the best.

19 Q. Did you ever get any seized vehicles to drive? I've always seen that on TV and movies.

22 A. I was never given one. Although, ²³ I've seized vehicles. But we had a couple that ²⁴ were made into undercover cars. Like we had a 25 couple high-end cars that they put cameras in

¹ and trackers and shut off -- engine shutoff ² switches and all kinds of interesting stuff.

O. I think there's the TV show "Bait 4 Car."

5 A. Yeah. Ours didn't have the locks. ⁶ It was -- we had ones with traps in them, the ⁷ concealed compartment. They had a lot of 8 interesting -- all kinds -- I mean, I can't ⁹ really -- yeah, I was right at -- I was right at ¹⁰ the level. Yeah.

11

9

Q. So tell me about your salary 12 increases over time at the DEA and sort of what triggers them. Is it just tenure, or are there promotions that happen or --

15 A. There are promotions. Every year ¹⁶ within your first several years, your -- I started as a GS-9 level. Which as a DEA agent, you start as a GS-7 or a GS-9. To get a GS-9, 19 you either have to have a master's or police ²⁰ detective experience, something -- something ²¹ that sets you apart from your average person. 22 So I started as a 9, which means ²³ that within a year of my graduation, I was ²⁴ eligible for a promotion to an 11. Don't ask me ²⁵ why they skipped 10.

¹ then when you were a GS-13?

A. I was -- it was back to around what I was making as a Newark police officer.

Q. And the benefits with the federal government under the DEA, were they better than, the same as, or worse than the Newark PD benefits?

A. Overall, worse. The -- I just remember being -- Newark police officer, my medical benefits, I really didn't have any copays, could go anywhere. I'll tell you, just being a

13 recently retired person from the federal 14 government, for an injury, the -- which you have 15 to fight for your pension. It's -- if I went out as a police officer, I would have gotten two-thirds pay tax free. So it's a lot -- a lot lower with the federal government. So overall the benefits aren't as good.

20 Q. Are you in the Federal Employees 21 Pension Program, or are you in a 401(k)?

22 A. If you're under the FERS system, your pension is based upon three different factors. It would be a percentage of your pay based upon years worked, and then you are

Page 51

FBI agents start at 10 for some ² reason, but -- but it's based upon performance. ³ Your boss has to sign off saying that you met ⁴ all the different requirements. So I was ⁵ promoted to 11 after the first year. The next ⁶ year would be a 12. Same criteria. Then after ⁷ a 12, when you're in grade, you can put in for ⁸ the promotion to senior agent.

So within three years, if you 10 start off as 9, you can become a senior agent, a 11 13, but you have to put in a whole packet ¹² proving that you deserve to be a senior agent.

13 You have to put in at least 14 three -- when I did it, at least three different ¹⁵ big cases, complex investigations, wiretaps, all ¹⁶ that kind of stuff. And it has to be approved by your boss, the assistant special agent in 18 charge of division, the special agent in charge ¹⁹ of division, and then headquarters has to approve it. So it's --21 Q. And did you, in fact, achieve

22 that? 23

A. I got it. It's called an "early 24 promotion." So within three years, I was a 13. 25

Q. And what was the pay at that point

Page 53

¹ eligible for Social Security. You don't have to ² wait until you're 67 or whatever your age would ³ have been. And you -- there's a 401(k). It's ⁴ called a Thrift Savings Plan. The government ⁵ will put in up to 5 percent matching. But I ⁶ always maxed it out every year.

Q. And I do want to talk about your retirement from the government, but we'll just pause that for a moment while we work chronologically through this. 11 During your 13 years as a special

12 agent in New Jersey, did you receive any 13 complaints or were you the subject of any ¹⁴ investigations that were looked into by Internal ¹⁵ Affairs or OPR or any of those types of ¹⁶ entities?

17 A. I know that one guy made a complaint against my whole squad saying we used excessive force, which was unfounded. That's --²⁰ I think that was the only complaint over the entire -- my entire tenure.

22 Q. Were you ever a defendant in 23 litigation, either civil or criminal litigation, during that time? 25

A. I've had -- there was a couple of

Page 54 ¹ lawsuits that came up that were -- that were 1 your report or that you may testify at trial in ² this matter? thrown out. 3 3 Q. Okay. Let's -- how many total MR. and one meth job. All the rest have been some

- Q. And who was the U.S. attorney, if you recall, that -- at the time that gave you that award? Was that Chris Christie?
 - A. No, no. That was right after him.
 - Q. That's the only one I know, so ...
- 6 A. Fishman. Yeah, Chris Christie was the U.S. attorney right before and then became the governor. It was -- Paul Fishman was the U.S. attorney.
- 10 Q. The other things that you have 11 listed on your resumé here under the bullet ¹² points, do any of them particularly stand out to 13 you as being relevant or impactful for purposes ¹⁴ of your value as an expert in this case?

MR. KOBRIN: Object to form.

- 16 A. I mean, they're all investigatory-type positions, so ...
 - O. So --

5

- 19 A. For the most part, except for a couple collateral jobs.
- 21 Q. So let's start with the first ²² bullet point. It says "Primary responsibility 23 is to make arrests and seize assets relative to ²⁴ federal-level drug investigations targeting ²⁵ narcoterrorists, gangs, and other violent drug

1 that you and special agents worked to begin

- ² prosecution -- or to refer prosecutions,
- ³ criminal prosecutions, to people, right?

MR. KOBRIN: Object to form.

- A. Special agents -- also we worked ⁶ with diversion investigators and task force officers. But, yes, it's for criminal
- prosecution.
- Q. Did any of the work that you did 10 with the HIDTA task force relate to noncriminal -- I'm not sure if you refer to that as administrative or civil in nature, but the noncriminal side of diversion control?
- A. No. Agents do criminal ¹⁵ investigations.
- 16 Q. Okay. How about the mobile enforcement team?
- A. That was targeting, at the time, Camden. Camden was the most violent city in the
- country. We targeted a couple of their top
- problems and issues, most of which was crack
- 22 cocaine, but there was heroin and there was some
- prescription pills along with the gang that was
- distributing drugs on the street.
 - Q. I take it that any of the work

Page 59

¹ trafficking organizations and individuals."

Is there a particular aspect of ³ that description that is applicable or relevant ⁴ to your expertise in this case?

A. Just the federal-level drug ⁶ investigation part. The other -- your diversion cases don't usually involve narcoterrorists, but some gangs do distribute the diverted prescription drugs.

10 Q. The next bullet point has a couple ¹¹ of different organizations; HIDTA task forces, 12 mobile enforcement team, high impact team, ¹³ CeaseFire, Newark gang investigations, and ¹⁴ Newark violence reduction task force.

Any of those task forces have a particular focus or relevancy on prescription 17 drug diversion?

- A. The HIDTA task force basically --19 it goes after all -- or whatever is a problem ²⁰ within that area. So we did do diversion cases ²¹ within the HIDTA task force. The mobile ²² enforcement team, we were in Camden.
- Q. And let me just stop you. 24 The HIDTA task force diversion ²⁵ cases that you did, those were criminal cases

¹ that the mobile enforcement team did would have

Page 61

- ² been criminal in nature also?
 - Yes.
- Q. The high impact team. Describe that for us.
- A. That was another focused on an area between Newark and Irvington, that there
- ⁸ was a lot of different crime-ridden
- neighborhoods impacted by all types of drugs and
- violence, and they just wanted proactive
- investigations done.

13

14

- 12 Q. Again, criminal work?
 - A. All criminal.
 - Q. CeaseFire?
- A. CeaseFire was similar, but that was -- that was more violent-type drug/gun-type 17 cases.
- 18 Q. Okay. Newark gang investigations. That's sort of self-describing. It involved the gangs of Newark?
- A. Gangs. But they did do some -they were selling oxycodones and OxyContins. 23 Q. And so as part of your work
- relating to the OxyContin and oxycodone ²⁵ trafficking by the Newark gangs, did you have

23

Page 62 ¹ occasion to investigate any of the defendants in ¹ investigations usually worked. It's just these ² drug, crime-ridden areas within Newark that just this case? 3 ³ needed some help. - 4 A. Many vehicles, houses, bank 5 accounts.
- 6 Q. When I say "who," I really mean what type of registrant; a pharmacy, a distributor, a manufacturer?
 - A. Pharmacies, doctors.
- 10 Q. Any wholesaler or distributor 11 subjects or defendants in those forfeitures?
- 12 A. No. It's -- basically all the 13 investigation that I've seen regarding drug diversion has been from independent pharmacies ¹⁵ in Newark, Internet pharmacies, and bad, dirty ¹⁶ doctors.
- 17 Q. Did you ever have occasion during your tenure with the DEA to investigate nonindependent pharmacies for diversion?
- 20 A. None of them ever came up. It was ²¹ always independent pharmacies, and then there ²² was ties to Internet pharmacies, but it was ²³ always independents. Never had any problems ²⁴ with any of the chain pharmacies.
 - Q. And that's you personally. Are

¹ for that kind of response.

Q. Do you know who was supplying the ³ individuals that were the subject of those ⁴ arrests? In other words, the source of their pills?

Page 68

- 6 MR. KOBRIN: Same warning regarding confidential information or 8 nonpublic information.
- 9 A. Yeah, a lot of those are part of ongoing. Are you asking if it came from different manufacturers or distributors or --
 - O. Yes.

12

- 13 A. Yeah, I can't -- that's -- those are all -- a lot of those are ongoing.
- Q. As part of your investigation, would that have been something that you would look into to see how they were getting their supply of the pills?
- 19 A. Yes. Our -- that's a huge thing ²⁰ in our training, is you always try to go up, up the chain, always.
- 22 Q. And did you ever work a case which ²³ went up the chain and identified a licensed distributor or registrant's distributor as a target of a criminal investigation?

Page 67

1

- ¹ you aware whether or not anyone in the
- ² New Jersey DEA had occasion to investigate any

MR. KOBRIN: Object to form.

- A. I worked a lot with the
- 6 different -- especially in asset forfeiture, we
- ⁷ had to work with the different diversion
- 8 investigators or agents that were doing
- ⁹ diversion cases, and everything was from doctors ¹⁰ and independent pharmacies.
- Q. Okay. The other -- a few bullet 11 12 points here. One is "Member and supervisor of 13 the DEA special response team." I take it none 14 of the special response team work that you did ¹⁵ relates in any way to diversion?
- 16 A. Well, it's basically a SWAT team, but we did assist at a couple different diversion arrests.
- 19 Q. Oh. So SWAT -- special response 20 team or the SWAT team was involved in arrests of 21 physicians or pharmacies, independent 22 pharmacies, I think, are the two that you
- ²³ identified, during your tenure? 24
- A. I can't really think of specific 25 cases, but there was need on a couple of times

Page 69

MR. KOBRIN: Object to form. Same warning. And if you answer, 3 just answer generally. Don't get into specifics.

- A. Yes.
- O. Do you recall how many occasions you identified a licensed distributor as a potential defendant or target of such an investigation?
- A. One -- one comes to mind. It's not generally -- it doesn't generally happen.
- 12 Q. What types of investigative tools -- well, that's getting into a different area we'll get into it in a second. Let's blow through these bullet points and take a break.

16 Okay. You also say you were a class counselor and instructor for the Basic Agent Class 201 in Quantico. I assume there's some aspects of that that touch on diversion?

A. Yes. Every basic agent class is 21 trained in diversion, and I -- a lot of the counselors would have to sit in with them on different instruction that they were getting. And they basically got a refresher course again ²⁵ on diversion.

11

Page 70

Q. The next one is that you were the ² "DEA designee and team leader for special agent ³ personnel to provide law enforcement assistance ⁴ during domestic national disasters."

5 Were you chosen to be that 6 designee because of your background at the Newark PD and fire department?

A. I think the emergency management ⁹ had a lot to do with it and the fact that I was a team leader on SRT.

MR. YOUNG: Okay. And I think that's basically the bullet points. Underneath that is just the commendations that you had, which I think we've already talked about.

So this is as good a time as any to take a break.

Q. So when we left off, we had just gone through the bullet list within your CV

Q. Have you thought about hiring a ² law firm to handle that?

MR. BARNES: Do you do workers' 4 5

A. You do? There you go.

Q. What was the accident that caused the original concussion or incident?

A. That would be the -- the neck injury would be -- it was during an arrest, an accident in a surveillance vehicle.

Q. A car accident?

12 A. Kind of. It was -- I didn't hit anything. It was basically getting thrown into the roof of a van based on hitting a bump at a high speed.

16 Q. And you suffered a concussion in that accident?

A. I smashed my head on the ceiling very hard.

20 Q. Did you also suffer a spine 21 injury?

22 A. I wouldn't doubt that that -that's according to the neurosurgeon with the ²⁴ neck injuries that I had to have fusions for, 25 based on.

Page 71

¹ under your DEA experience. And I wanted to ² circle back to something, which is your ³ departure from the DEA. And I think you ⁴ mentioned in your prior testimony that you had ⁵ an injury, or -- I think it was an injury, you ⁶ said.

A. Yeah, medical.

Q. Tell us about the nature of that.

9 A. Basically most of my spine is titanium at this point, so ... 10

O. Was this an accident?

12 A. A combination of all kinds of things over the years. Excessive wear and tear and a couple injuries at the DEA. 15

Q. Were there job-related injury ¹⁶ claims that you made against the DEA under, ¹⁷ like, workers' compensation?

A. One of the times I just went to ¹⁹ the hospital that day. And then I was a young ²⁰ agent. I just kept going back to work with a 21 concussion. But it just caused more -- over the ²² years got worse and worse from that injury. ²³ And, of course, at this time I tried to reopen 24 the claim to get surgery, and they -- they just

16 ¹⁷ I hit my head, but I didn't get treatment. I guess a couple years later is when, between these incidents, I ended up having to get neck ²⁰ surgery.

Q. Did you miss time from work in ²² order to get your neck surgery? I assume that 23 you did, but --

A. Oh, yeah. It was for all the ²⁵ different surgeries. I had four spinal fusions,

Page 73

Q. Did you miss time from work after ² that accident?

A. The actual accident? As I stated, ⁴ I went to the hospital that day, and I just --

⁵ it was my case. We just did a major takedown, ⁶ so I just kept going back to work.

Q. So you just went to the hospital and you were released the same day? 9

10

Q. And you went right back to work?

11 A. Made sure I didn't have a brain bleed or something. 12

Q. Okay. And did you have any other

²⁵ deny it. So I just went through insurance.

6

Page 74

- ¹ lumbar reconstruction. I was out for months.
- ² Went through all my -- all my sick time,
- ³ vacation time.
- Q. Do you know approximately how much time from work you missed as a result of this
- 6 injury?
- A. I'm not exactly sure how many --
- ⁸ because I had four different surgeries. Each
- ⁹ one I'd be out -- one I did back to back. So
- ¹⁰ even while I was out, though, I was still doing
- ¹¹ work-related stuff from home. So I don't
- 12 know -- even though I put in for sick time or
- ¹³ whatever, I would still follow up, get calls
- ¹⁴ from the U.S. Attorney's Office on different
- 15 cases or whatever. So even though I was out, I
- ¹⁶ was still working to a point. But, I mean,
- 17 recovery from a spinal fusion would be at least a couple months.
- 19 Q. What was the date of the first spinal fusion surgery?
- A. Let me see. That was probably --
- ²² I think it was January of 2011. I'm not exactly 23
- 24 Q. I won't hold you to it. I was ²⁵ just trying to figure out within the chronology

1 MR. KOBRIN: Object to form.

- A. The HIDTA task force I did from
- ³ the beginning of my career. Mobile enforcement

Page 76

Page 77

- team -- 2011 I was in the mobile enforcement
- team. And then all the other ones were after.
 - Q. After. Okay.
- Were there physical limitations
- that your physicians placed on you with regard
- to what you could do at work?
- 10 A. Maybe for the first couple weeks
- don't try to go all out kind of things. And
- then -- and then you're back. When you're back,
- you're back. That's it.
- 14 Q. You never felt like you were
 - limited -- that your spinal fusion limited your
- ability to perform your job? 17
 - A. I -- I never thought it did.
- Q. Okay. So tell me how all these
- injuries culminate to a departure from the DEA.
- What made you decide to take retirement?
 - A. Well, after that many surgeries,
- 22 it's -- and the fact that I -- you know, I'm
- part of the SRT and all these other things, and
- ²⁴ doing the general job as an agent is pretty -- a
- 25 lot of wear and tear. So it's -- my doctor kept

Page 75

- ¹ of your tenure with the DEA, if it was at the ² end or the beginning or what.
- And you mentioned, I think, that you had several surgeries following that?
 - A. I had three more fusions.
- Q. Do you recall the dates,

5

6

- 7 approximately, or times frames of those?
- 8 A. One was early 2013, and then the 9 last two were back to back in early 2016.
- 10 Q. When you returned to work from those surgeries, did you return in a light-duty capacity, or were you back to full speed?
 - MR. KOBRIN: Object to form.
- 13 A. Depending on the time, I'd -- you
- 15 know, I'd go back to work, right back to my
- group and pick up my duties. Then as the
- surgeries went on, after my fourth surgery, I
- ¹⁸ went back -- I helped instruct a little bit and ¹⁹ then went back again.
- 20 Q. The work that you did in bullet
- ²¹ point 2 of the DEA section of your resumé, those 22 task forces, was all of that work done prior to
- ²³ your spine surgery in 2011, or did you do any of
- ²⁴ that kind of task force work after your first
- ²⁵ spine surgery?

- ¹ recommending, you know, "If you keep going,
- ² you'll have to have surgery number 5." So it
- ³ was time.

20

- Q. When did you make that decision?
- ⁵ I note in your resumé it says November 2018 is
- ⁶ your last tenure with the DEA, but I assume you
- had sort of sought the paperwork and the
- approval to do this before then?
- A. Only -- I guess I spoke to my boss
- and basically only did it a couple months
- beforehand. And then right now -- after you go
- out, you have to apply for your pension. So I'm
 - in the middle of that process now.
- Q. Your departure from the DEA was
- due entirely or only partly to your injury? In
- other words, were you leaving the DEA to go
- pursue other interests, or was it that you
- couldn't continue in your job because of your injuries? 19
 - A. It was all based upon the injury.
- I just didn't want to have surgery number 5. 21 Q. But you also decided to pursue a 22
- ²³ career as an expert witness, at least your
- ²⁴ resumé depicts. In the same month, November of
- ²⁵ 2018, you began working as a law enforcement

Page 78 ¹ expert witness? A. I think -- I'm not sure if I have 2 MR. KOBRIN: Object to form. ² all these on -- I might say "see resumé" or -- I 3 ³ have "Resumé Attached" at the bottom. You could O. I haven't done anything November of '18. 6 with it, no. Q. But you did begin holding yourself Q. I won't hold you to it. I know out in November of '18 as a law enforcement LinkedIn can recommend some areas, and I didn't 9 expert witness? know if these came from LinkedIn or these were 10 developed by yourself. A. Let's see. Yeah, I think I 11 contacted some -- my wife's an expert witness as A. No. These are things that I have 12 training and expertise in. I've taken courses ¹² a nurse, so ... 13 or certifications or ... Q. Okay. Did you market yourself in ¹⁴ November of '18 to outsiders as an expert 14 Q. How many engagements have you had 15 witness? 15 as an expert since leaving the DEA? 16 A. I've never self-marketed myself, 16 A. - THE WITNESS: I'm sorry.
- MR. KOBRIN: I don't think he's ever -- he said there aren't any cases

- Q. Since leaving the DEA, have you attended any type of courses or done any self-study in order to support your expert witness business?
 - A. No. I've only been retired for a few months.
- Q. You mentioned in your resumé that you hold a top secret clearance. Did you -- was that a function of being a special agent with the DEA?
- A. Yes. You have to be able to attain and hold a top secret clearance to be a DEA agent.
- Q. And how does that work? Do you keep that after you retire?
 - A. It's every five years you get recertified. I was certified in 2016. So I'd

- conflict that would keep you from taking that
 engagement.
- A. Yes. We have to -- we have to
 contact the counsel even as -- division counsel
 regarding cases that we do, or the lawyers
 contact the DEA itself.
- Q. Other than your three engagements as a law enforcement expert witness, are you engaged in other means of employment at this point in time?
 - A. No.

16

25

- Q. So when you're not working in one of those three capacities, those engagements, how do you spend your time?
- A. Well, I like to go to the gym. I walk my dog, do things around the house.
- Q. Do you do any additional coursework or studies relating to your expert witness practice?
 - A. I'm looking into different things

- resulted in convictions or plea deals while at
 the DEA, how many of those, if you recall,
 involved violations of the federal Controlled
 Substances Act?
 - A. At least a couple dozen.
- Q. And those would be the same cases that you referred to earlier as the diversion cases?
- A. Yes. That's what we want, all CSA
 stuff. We just in general call it "diversion
 cases."
- Q. Were there any non-diversion cases that you worked on at the DEA that involved violations of the CSA?
 - A. Yes.

5

15

16

17

18

19

- Q. Okay. What are those instances? MR. KOBRIN: And, again, same warning regarding confidential nonpublic information.
- A. Regarding the instances? I can't really -- a lot of them are ongoing-type cases, so I -- I mean, we kind of briefly touched on this earlier regarding -- in general the cases regarding the independent pharmacies and the doctors, the dirty doctors. Those were in

Page 99

13

general what the cases were, and there was about
 a couple dozen of them.

- Q. Are there dirty doctor, as you described it, cases that you can talk about that the matters are closed and no longer pending?
- A. I'm not sure, because -- I mean, I

 don't know if they've closed while -- I mean, I

 haven't been gone that long, but some could have

 closed while I have been gone. Some might still

 be going on.
- Q. Your tenure with the DEA began in 2005, some 14 years ago.

Do you recall in 2005 or 2006 working on any dirty doctor cases at the DEA?

- A. Within a couple years of being an agent, I was working -- I'm going to say the first one was -- it was an independent pharmacy.
- Q. And just -- I understand there's
 some limitations. You don't want to get into
 the confidential nature of these kinds of cases.

But generally, when you say an independent pharmacy case that you worked on, describe for me the type of conduct that such a pharmacy would engage in that would rise to the level of criminality for the DEA to investigate.

MR. KOBRIN: Object to form.

A. In general, a pharmacy that we
would have information is basically doling out
opiates at -- fake prescriptions or with no
checks, or they're not -- you know, they're not,
you know, living up to their end of the CSA or
CFRs or anything, so super-high volumes that
just aren't commensurate with what they should
be doing based on the size of the store.

Q. Did you receive some specialized training to give you insight into some of the factors that you just described, like the relationship of the size of the store to the volume of the sales of controlled substances? How did you know to make sense of the relevance of the size of the store compared to the size of the sales volume?

MR. KOBRIN: Object to form.

A. We received training in general --

I mean, that area is pretty broad in the CFR, but it's -- a lot of it is through experience after the training or with working with different investigators that have been doing it for years, or other agents.

Q. When you say "investigators," do

Page 101

Page 100

you mean people from the Office of DiversionControl?

A. Yes. Within each office, division office, there are diversion investigators.

Q. So when you first began working on cases involving diversion, were you -- I'm going to say "trained." I don't know what the right term of art is in law enforcement, but I would call it trained by those investigators or instructed or kind of read in by the instructors, or was there some other way that you learned how to do a diversion case?

MR. KOBRIN: Object to form.

A. Well, you learn how to do an investigation at the academy. Investigation is investigation, whether it's a diversion investigation, an investigation into money laundering, investigation into Pablo Escobar. Investigation is investigation. They all basically do the same kind of steps to do it.

So I was doing investigations with the DEA before I became an agent. So I was

3 trained with on-the-job training. And then I went to the academy and they trained me even

²⁵ further. And then you come out of the academy

¹ and you're placed with another agent, senior ² agent, who trains you even more.

And then you -- basically, you ⁴ learn something new every day. And through ⁵ experience of other people, you learn things ⁶ regarding the matters you're talking about, ⁷ regarding volumes of a store or different ⁸ specifics. 9

Q. So how did you find out what the volume of sales was from a given suspicious 10 pharmacy? Where do you get that information? MR. KOBRIN: Object to form.

A. That was -- I can't -- I can't --14 in general, where can you get that? MR. KOBRIN: I'm going to warn you again, don't give away any kind of investigative techniques that are

18 otherwise not public. 19 Q. Are there investigative techniques regarding the sales volume of pharmacies that are nonpublic?

22 MR. KOBRIN: That's a "yes" or 23 "no."

A. Well, I mean, there's databases that are utilized.

Page 104 1 yourself to, let's say, a pharmacy and see a

² line around the corner and all day long, and

³ it's just abnormal. Then you'd investigate from

I mean, investigation has a whole ⁶ bunch of parts. You know, you have to build

your probable cause. So you add, you know,

that's -- that's -- you know, that's not --

doesn't look right, and then this doesn't look 10 right.

11 And then you might use other 12 techniques to gain information, you know, and 13 you start adding everything together, and then, 14 you know, you form your investigation and you go further.

16 Q. Why would a line of people around the corner outside a pharmacy be suspicious or -- I can't remember the word that you used, 19 but --

20 A. Well, if they're all obviously high, then it's pretty suspicious. 21

22 Q. How do you know if the people are 23 high?

24 A. That's through a lot of training and experience I've had. If you're an

Page 103

22

23

Q. Let me simplify it.

11

12

13

16

17

10

Was the source of information that ³ you used to determine the sales volume of particular pharmacies the ARCOS database?

A. I -- I specifically -- mine came from other ways. It wasn't the ARCOS database. Q. These other ways that you're

describing, are these nonpublic things that you 9 can't describe?

A. It's not -- it's not any database.

11 Q. Okay. So you -- I think you 12 testified earlier that in most of these 13 diversion cases, an informant is what led you to 14 open the investigation and begin the ¹⁵ investigation, right? 16 A. That's used a lot. Some

¹⁷ investigations come through informants, 18 cooperating defendants, or other law enforcement 19 agencies giving you the lead.

20 Q. Were any of the informants able to give you sales volume information about these ²² suspicious pharmacies or physicians? 23 A. They can't give exact information

²⁴ like -- like the ARCOS database that you ²⁵ mentioned earlier, but you could -- you could go Page 105

¹ inner-city police officer for a bunch of years, ² you could tell if someone is high or not.

Q. Could you drive up to any pharmacy and if there was a line outside, would you be able to, in light of your skills and experience and training, discern that the customers waiting in line were drug-seeking customers?

MR. KOBRIN: Object to form.

A. I mean, if they're basically in a zombie-like stupor and falling over like certain pharmacies that we've investigated, then, yes, you can tell. You can't tell every person who's a drug seeker just by looking at them. But there are some obvious signs for people who are hardcore addicts.

16 Q. Are there other what I would call "indicia" or symptoms of suspicion for a pharmacy other than the line out the door? What are the other things you would look for to identify a suspicious pharmacy? 21

MR. KOBRIN: Object to form, and the same warning as earlier regarding investigative techniques.

A. Yeah. I don't know if I can get 25 into a lot of that because it's a lot of stuff

11

22

20

23

24

25

Page 106

¹ they teach down at Quantico that they don't ² really want us describing.

10

Would a high prevalence of out-of-state license plates be a warning sign or an indicia of suspicion to you at a pharmacy?

MR. KOBRIN: Object to form.

- A. Sure. That would be another thing 9 that you can key on.
 - Q. Why is that?
- 11 A. Because usually you don't travel 12 out of state to go to a pharmacy if -- basically every place has a neighborhood pharmacy, at least one.
- 15 Q. What about a high percentage of --¹⁶ not necessarily out-of-state license plates, but prescriptions coming from out of state, so the people may be from in state but the prescriptions may be from another state? Would 20 that be a symptom to you?

MR. KOBRIN: Object to form.

21 22 A. It could be indicative, but the ²³ person could also be on vacation. I mean, ²⁴ it's -- as I said, with an investigation, you ²⁵ have to kind of look at everything and then form

¹ when we're doing a diversion investigation, ² we're looking for diversion. So we go right at ³ what's being diverted and prove whether or not ⁴ it was or not and go from there.

Q. So my question was simply whether or not that was a factor that you considered in any of your investigations into diversion, the percentage or the ratio of controlleds to total prescriptions. Is that not something you ever looked at?

A. That wasn't something that was germane to any of the cases I did.

13 Q. How about the percentage of customers who pay in cash? Would that be relevant to a diversion investigation?

16 A. That would be a flag for a 17 pharmacist.

Q. Is that something that you looked at or considered in any of your diversion investigations, the number of cash-pay 21 customers?

A. Not necessarily. It was more making sure that there was legitimate prescriptions and controls in place, but that -that would be a flag that a pharmacist should

Page 107

¹ an opinion based upon everything you see. You ² know, each thing builds on the next. But that

³ would be something that you'd look at.

Q. Did you ever assess the percentage ⁵ of controlled substances as a function of the ⁶ total number of prescriptions for a given pharmacy that you were investigating? 8

MR. KOBRIN: Object to form.

9 Q. In other words, a pharmacy 10 dispenses lots of drugs, not just controlleds, 11 right? When you were doing your investigations 12 into diversion, did you consider that as a

13 factor, that it had a high ratio or percentage of controlleds among all prescriptions?

A. A high ratio of controlleds compared to everything else?

O. Yes.

15

16 17

18 A. That's not necessarily -- it can ¹⁹ be indicative, but that doesn't necessarily mean ²⁰ anything. As long as there's valid 21 prescriptions, then that's just -- it could be 22 right next to a pain clinic. So, you know, you ²³ don't know. But it all depends on, as I said,

25 the circumstances. And I wouldn't necessary --

Page 109

¹ look into.

Q. Are there guidelines that the DEA ³ uses, if you know, as to what an acceptable percentage of cash-pay prescriptions would be?

A. I don't know.

There's not like a Mendoza Line of O. cash pay?

8 A. There might be. That's just -wouldn't be germane to what I'm doing, really, 10

Q. Okay. How about the prevalence of a single prescriber among all controlled prescriptions for a given pharmacy? In other words, if a pharmacy has a lot of controlleds going out the door and they're all related to a single provider, would that be a sign of some 17 suspicion for you? 18

A. That -- that would definitely be something we would look at.

Q. Is that something that you did look at or consider in any of the diversion investigations you conducted at the DEA?

A. It did come into some cases regarding doctors and pharmacies.

Q. And in your experience, have you

- ¹ found close relationships between doctors and pharmacies in the cases in which you've
- ³ investigated diversion?
- So in your diversion cases which ⁵ involved bad pharmacies, did you find that those ⁶ pharmacies had close relationships with, you
- ⁷ know, the big writing prescribers? And,
- 8 correspondingly, when you were investigating bad
- ⁹ doctors, did you find that those doctors had 10 particular cozy relationships with particular

11 pharmacies? 12

13

6

7

MR. KOBRIN: Object to form.

- A. Yes, that does come into play. There's a lot of relationships between dirty doctors and dirty independent pharmacies.
- 16 Q. And I know we touched on this before, but I just want to make sure I cover it.

Did you -- in the two dozen or so ¹⁹ diversion cases you've mentioned, did you ever ²⁰ investigate to determine whether or not the

- 21 supplier of the pharmacy, or to the extent that 22 there were physicians dispensing an office in
- 23 New Jersey -- I don't know if that ever happened
- ²⁴ here or not, but it did in Florida -- that the
- ²⁵ supplier of the pills to your targets was

Page 111

24

25

9

10

¹ complying with their obligations under the law? 2

MR. KOBRIN: Object to form.

- A. That information would be sent to ⁴ different officers or agencies -- I mean, different offices to follow up on.
 - Q. Which offices would that go to?
 - A. It could go to the Office of
- ⁸ Diversion Control. It could go to -- if we
- ⁹ found out that it was being shipped from Ohio,
- ¹⁰ we might call the Ohio office, "Hey, we got this 11 at a pharmacy. You might want to look into this
- 12 distributor, or at least make sure that their
- 13 controlleds are proper at least regarding this pharmacy."
- 15 Q. Are there any other federal ¹⁶ agencies besides the Office of Diversion Control within DEA that you would, I would just say, share information with or report your suspicion of a bad supplier or a supplier that wasn't complying with its regulatory obligations?

21 MR. KOBRIN: Object to form. A. Within DEA, it would be -- it 22 ²³ might be the main headquarters office, or it could be -- that would be the Office of ²⁵ Diversion Control so that they could funnel it

- ¹ out to -- it might be an agent or a diversion ² team investigator agent that is investigating
- ³ that specific person or distributor or whatever,
- - and then that would be information for them in their case.
 - Q. But that's not something that a non-diversion control special agent would look into?
- 9 A. Anyone who would have a case on that specific entity that we found information on. Because, as I said, all agents -- agents have cases in diversion. Whether you're in a diversion group or a non-diversion group, you still have diversion cases.

15 So I might -- I might be somewhere and I have a case on some manufacturer, and I would get leads from other offices, "Hey, I got this. I arrested this person, and it's coming back to your target." 20

- Q. So a manufacturer could be 21 investigated by special agents within the DEA outside of the Office of Diversion Control? 23
 - Agents can investigate any --
 - Q. Okay.
 - -- anyone and anything that -- as

Page 113

¹ long as it's within our scope.

Q. Do you know during your tenure ³ with the DEA whether or not any non-diversion

⁴ control special agents investigated any

manufacturers? I don't need to know the

manufacturers' names. Just generally.

MR. KOBRIN: To the extent that it wouldn't violate any nonpublic information or release any confidential information.

- 11 A. Any investigation that's done is 12 going to be done by an agent. It's criminal. 13
 - O. Yeah.
- A. Which would be diversion. So anything that's diversion is going to be criminal, and it's going to be handled by an agent. So I don't know specifically -- I don't have -- I'm not -- I'm not down in operations or anything in headquarters, so I don't know who 20 has what case.
 - Q. And I guess what I'm trying to discern is where the sort of front of the house and back of the house are separated. And my understanding until today was that manufacturers and distributors were investigated by the Office

¹ of Diversion Control, that they had the primary ² oversight for those entities.

A. That's their primary focus, but ⁴ any agent can do the investigation. In fact, ⁵ once it's criminal, it has to be done by an 6 agent, whether that's an agent that works ⁷ specifically under the umbrella -- because it's 8 one house. We're just one house. It's not 9 really split --10 Q. Yeah.

11 A. -- because we overlap. One day I 12 could be in HIDTA Group 1. Next day I could be ¹³ in Tactical Diversion Squad 7. You know, 14 it's -- and you're expected to jump out of that group and run in in that group and go.

16 Q. I gotcha.

17 But you personally have not had occasion to investigate a manufacturer for 19 diversion, right?

20 MR. KOBRIN: Same warning.

21 A. Well, the most I could say is a lead was sent on a case regarding a manufacturer.

24 Q. A lead was sent to you, or you sent a lead to someone?

¹ information. Whoever has the case open.

Q. So in a hypothetical, if you ³ received information from an informant that a

⁴ New Jersey-based manufacturer -- we'll call them

Page 116

Page 117

⁵ Drug Corp -- that Drug Corp was overshipping and ⁶ not complying with the CSA, that's something

that you would take on yourself and you would

investigate?

9

10

14

24

25

9

10

MR. KOBRIN: Object to form.

O. Yes?

11 A. Yes. It's not -- like, if you're 12 trying -- we don't have to give it to, let's say, Diversion Group 4 or something like that.

Q. Right.

15 Again, my question isn't whether you have to or not, but what the protocol is, right? Like what the reality would suggest.

A. The reality with the DEA is if you come up with the information and you're starting a case, that no one else is using that specific 21 target or is targeting that specific entity,

whether it's a manufacturer, distributor,

pharmacist, doctor, it's your case.

Q. Okay.

A. It doesn't matter whether you're

Page 115

A. A lead sent to someone else.

O. Yeah. And that's sort of my ³ point, is there's someone else who's supposed to ⁴ do those investigations, right? 5

MR. KOBRIN: Object to form.

A. Well, if there's a major ⁷ manufacturer in Jersey and I happen to get good 8 information, I could open the case and I could ⁹ be the person getting the leads from Ohio, from ¹⁰ Jacksonville, Florida, from wherever. So I mean ¹¹ it's ...

Q. Sure. And I understand that you ¹³ can, that that is a possibility under the ambit of the regulations and authority that the DEA ¹⁵ has generally.

16 But I'm asking more practically. When information is produced that suggests a ¹⁸ violation of the CSA by a manufacturer, which ¹⁹ entity or which arm of the DEA is the one that ²⁰ investigates that? Is it the special agents 21 that are doing criminal investigations, or is it ²² the Office of Diversion Control?

23 MR. KOBRIN: Object to form.

24 Asked and answered. 25

12

A. Basically whoever got the

¹ in whatever group.

Q. I asked you about you conducting ³ investigations into manufacturers for CSA ⁴ violations. I think I previously asked you, but ⁵ I just want to clarify.

Did you have occasion to investigate violations of the CSA by distributors?

> MR. KOBRIN: Object to form. Same warning.

11 A. I mean, it's -- it was another thing with the lead going somewhere, because I didn't have the open case on that. That's about as much as I can say.

15 Q. Okay. Back to your resumé just 16 briefly.

17 You list these expert areas. It says, "My expertise is in the following areas." And, again, it goes "active shooter" through 20 "witness."

Which areas within here would you say relate to the work that you did in this 23 case?

24 Anything with drug investigations. 25

Okay. So there's -- beginning at

Q. Do you know what I mean by "scope

- A. Well, they had me explain my ² entire background, my experience. And then they ³ made a determination amongst themselves as to ⁴ whether or not my experience and expertise would ⁵ actually be good enough for the case to be an
- 6 expert or not. Q. But in terms of your approach to 8 this engagement, what you did and how you built your report, did you propose that to the law
- firm, or did the law firm propose that to you? 11 MR. KOBRIN: Object to form.
- 12 A. How I did my report?
- 13 Q. Well, how you went about your work ¹⁴ in this case, right? Obviously you weren't
- 15 involved in the case to begin with, so you
- ¹⁶ didn't know what information there was out
- ¹⁷ there, right?
- 18 A. Oh, correct. Yes.
- 19 Q. So they provided you with ²⁰ information?
- 21 A. A lot of information, yes.
- 22 Q. How much information would you say
- 23 you've reviewed in page count, if you could
- estimate?
 - A. I can't tell you how many

- ¹ you've read it, or just seen it on someone's 2 desk?
- A. I haven't read it -- I didn't read
- ⁴ it cover to cover, but I reviewed parts of it.
- ⁵ Plus, after a while, the DEA went to electronic
- ⁶ forms, so you really -- if you needed any
- ⁷ information regarding anything that's either out
- of the diversion manual, agent manual,
- operations manual, you type it into the Internet
- search, and it would come up with whatever, and
- it would be right on your screen. So you really
- didn't need the manuals after that. 13
- Q. But when you referred to the physical manual, not the electronic version,
- what -- to the extent you recall, what were the
- occasions which caused you to consult the
- "Diversion Investigators Manual"? Were those
- diversion investigations you were working on? 19
 - MR. KOBRIN: Object to form.
- 20 A. Basically since I was expected to be able to do diversion cases, I -- you know,
- it's always good to be as well rounded as you
- can. So I'd review different manuals and see if
- ²⁴ there's any updates, because the manuals would

Page 129

be updated. There's always new things coming

Page 127

- ¹ thousands of pages. They give me all the --
- ² basically everything in the back here,
- ³ everything in the back. It's full depositions,
- 4 two-day depositions, and, you know, video
- ⁵ depositions, and then all the different manuals
- 6 and -- you know, the stuff that's listed in the
- ⁷ back. There's a lot of records.
- 8 Q. And you're referring to, I
- ⁹ believe, Appendix B to Exhibit 2 of your 10 deposition?
- 11
 - A. Correct.
- 12 Q. That's the list of the materials that you relied upon in forming your report?
- 14 A. Correct.
- 15 Q. Section 2, "Documents Produced in
- This Litigation," the first item there is called 17 the "Diversion Investigators Manual."
- 18 You reviewed that in preparation for your report, right?
- 20 A. Correct.

21

24

25

- MR. KOBRIN: Object to form.
- Q. Is that the first time that you 22
- reviewed that "Diversion Investigators Manual"? 23
 - A. I've seen the manual before.
 - When you say "seen" it, you mean

- ¹ out, things to look for. I really can't get
- ² into what's -- a lot of stuff is redacted. I
- can't really talk about it.
- Q. So did you have access to a
- physical copy of the "Diversion Investigators
- Manual" at your workplace?
 - A. I could -- I could have gotten one
- in hand at any time if I wanted, but it's a lot
- easier on the computer.
 - Q. Yeah.

10

- 11 So before you had the computer
 - access, there was a sort of binder or manual
 - that was available for you to use?
- A. I think they just gave that out
- of -- they always gave those out. It was always
- on the intranet system since the day I was even
- a task force officer. You could look stuff up.
 - Q. How about number 2, "Legal
- guidance on reporting suspicious orders pursuant to 21 CFR 1301"? Had you seen that before this
- engagement?
- 22 A. That specific memorandum, no, I 23 did not.
- O. Okay. How about the "Chemical
- ²⁵ Handler's Manual" dated January 2004? Is that

Page 130 1 something that you've previously seen? ¹ regulatory materials that you reference at the 2 A. I saw a "Chemical Handler's ² end. Were these -- let's take the first one, 3 Manual" back when I was in emergency management, ³ 21 CFR 1301.71. Is that something that you 4 because we had a lot of different things that we 4 would have reviewed during your time and tenure 5 had to deal with in emergency management ⁵ with the DEA? 6 regarding chemicals. But a lot of that A. In general, you're supposed to 7 "Chemical Handler's Manual" from 2004 would have know about the security requirements. 8 been after, because that's a revision, and Q. Yeah. I just wasn't sure, you ⁹ that's more about Sudafed and making meth and know, if -- those are sort of the laws that 10 all that. you're investigating. I didn't know to what 11 ¹¹ extent you're actually going and reading the Q. Okay. Subchapter 514 "Quotas," 12 types of quotas, that looks like it also cites laws, you know. 13 13 to the "Diversion Investigators Manual." Is A. You're expected -that something that you would have seen before? 14 MR. KOBRIN: Object to form. 15 15 A. I knew about quotas, but I didn't A. You're expected to know them. So specifically see that, no. you should at least review them. 17 17 Q. How about the next one, Q. The same with Section 801? 18 Chapter 51, "Policy and Interpretations"? A. Yeah, 21 USC, yes. It's 801. 18 19 Same thing. 19 Q. So after your -- jumping back to 20 Okay. your leaving the DEA, after your first surgery, 21 I mean, I knew about quotas, your first spinal fusion, did the follow-up care 22 but ... involve prescription opioids for pain relief? 23 23 Q. I assume number 6, same thing. A. After surgery, yeah. Quotas again? 24 Q. Do you remember the particular 25 A. Exactly. ²⁵ brand and dosage of the prescription you Page 131 Page 133 Q. How about number 7, ¹ received? ² Appendix 5311A, "Requirements to Report MR. KOBRIN: Object to form. This ³ Suspicious Orders"? Was that the first time you is well beyond the scope. 4 had seen that appendix? O. Go ahead. A. That specific appendix, yes. But The exact brand and dosage? I A. ⁶ we knew according to the CFR, that you had to know it's --⁷ report suspicious orders; 106 form, DEA Q. If you recall. If you don't ⁸ Form 106. recall ... 9 Q. And the next one, it seems to be a A. I know it was probably -- I don't really remember. I mean, that was six --10 subset of that. So I assume same answer? 11 A. Yes.

17

12 Q. And 9 and 10 seem to be similar in 13 their scope. It's coming from the "Diversion Investigators Manual." These are the 5126, ¹⁵ "Requirement to Report Suspicious Orders." 16

Was this the first occasion that you had to look at those specific documents?

18 A. These specific ones. I know I've probably seen versions of them in the electronic ²⁰ form, though. But, I mean, a lot of this stuff ²¹ that we dealt with was actual diversion.

²² Suspicious orders aren't necessarily diversion.

23 So it's -- you know, when we got to it, it was

²⁴ most likely a diversion-type criminal matter. 25

Q. You also have some statutory and

probably Percocets or something. I'm not exactly sure.

13 Q. Do you know where you got the prescription filled?

15 MR. KOBRIN: Object to form. Same 16 objection. 17

A. CVS Pharmacy.

18 Q. Is that where you typically get your prescriptions filled? 20

A. Either there or the Wegmans 21 Pharmacy -- they're right by my house.

22 Q. And you mentioned that you had several surgeries. Did you receive follow-up prescriptions for opioids for pain control after each of those surgeries?
